It is the intent of the City to select one bank to provide full banking services for the City funds. However, the City may also elect to award a contract to one or more banking institutions for any or all optional services. The objectives are to obtain the most efficient services while minimizing cost to the City.

SECTION II SCOPE OF BANKING SERVICE

The City of Treasure Island currently has six accounts. Five of the accounts include two zero balance accounts, one controlled disbursement account, and two checking accounts. One separate account is set up with Florida Safe Investment Pool. Proposers are highly encouraged to review the City's comprehensive annual financial report (CAFR) to gain better insight into the City's financial position and operations. The CAFR is located at: <http://www.mytreasureisland.com/departments/finance/index.php>

SERVICES DESIRED

Treasury Management System

The proposer must describe in detail the services and cost associated with the treasury management system utilized by the Proposer. A description of the services provided such as daily bank balance retrieval, on-line stop payment capabilities, wire transfers, remote deposit, image storage, etc. must be included in the proposal.

Disbursement Account

The purpose of this account is to concentrate the cash balances on a daily basis. Daily City revenues (cash and checks) are deposited three times a week. Daily credit card sales are also deposited to this account. Parking Meter Coin revenues are deposited once weekly. Currently, the City utilizes Treasure Island police officers for deliveries of the coins to the bank. Incoming and outgoing wire transfers will be made to and from this account principally for investment purchases and sales. Deposits to this account will be retained in the account until the funds become available, at which time they will be considered collected balances. The Institution will process as current day's transactions all deposits received by at least 2:00 p.m. If the Institution cannot process as current day's transactions all deposits received after 2:00 p.m., please indicate the latest processing time on the proposal. Institutions agree to credit the Controlled disbursement account for all checks in accordance with the Institution's availability schedule (attach a copy of their availability schedule to the proposal). The Proposer is to indicate the interest rate offer as unadjusted, minus basis points, or plus basis points. The Proposer should also discuss any other options for public interest checking accounts which offer a higher yield with limitations governing those accounts as to maximum monthly withdrawals, minimum balances to be maintained, etc.

Zero Balance Accounts

End-of-day balances are transferred to the City's Disbursement Account. All disbursements will flow through the zero-balance accounts. All balance will be maintained in the concentration account. Depending on the Proposer's policy, the accounts payable and payroll account will be reimbursed at the close of business or at the opening of business following the day the checks are presented for payment. These zero-balance accounts will always have a zero ledger balance at the beginning of each business day. The City reserves the right to open additional zero-balance accounts during the contract period at the price proposed in the proposal.

Checking Accounts

Checking accounts are needed for employee FSA and State Revolving Loan escrow account. These accounts need to be funded from the Disbursement Account.

Monthly Statements

Monthly Bank statements for all accounts must be provided to the Finance Director with documentation supporting all entries on the statement within five (5) business days after the last calendar day of each month. If cancelled checks are included, they do not need to be sorted in numerical order. The statements shall have checks listed in numerical order with any breaks in the order noted. A monthly analysis of the Institution's cost of the Controlled disbursement account, interest earned, average balance invested and average interest rate will also be provided. A monthly service charge statement will be furnished showing, in detail, the Institution's service charges assessed for Controlled disbursement accounts or compensating balances required for each category of bank charges, depending on the method chosen by the City.

Electronic Banking

The City intends to utilize electronic or web-based banking services. It currently manages wire transfers, electronic funds transfers (EFT), automated clearing house transfers (ACH), stop payments, and positive pay electronically. The Proposer must describe the type of on-line banking systems used for: (1) cash management (2) payments (i.e. ACH, wires etc.) (3) reconciliation (4) positive pay decisions and (5) stop payments. The Proposer shall provide in its proposal details regarding how far back the data is warehoused and on how many business days the data is stored on the reporting system and available for customer access for each system listed above. Additionally, the Proposer must include a description of the Proposer's security procedures for the information reporting system listed above, both for access and information protection. The City is interested in remote deposit for depositing checks received.

Wire Transfers

The City intends to consider all wire transfers received by the Institution prior to the end of the business day, as "available for investment" by the City, regardless of the time of actual receipt by the Institution. Should the Institution not receive a wire transfer, the transfer will be traced from origin to destination to ascertain the party responsible for delaying the transfer. Adjustments will be made as soon as possible for any lost interest, if necessary. If a web-based transfer option is not available, the awarded Institution agrees to execute any wire transfer order within one (1) hour after notification by the Finance Department through the computer terminal, telephone, or FAX. The Institution will trace transfers ordered and not received and adjustments will be made as necessary. The City uses wire transfers in the Controlled Disbursement Account to/from the Florida Safe Investment Pool and wire transfers in the Controlled Disbursement Account to receive from ETS, Complus, Duke Energy, Pinellas County Tax Collector, Pinellas County and state and federal government agencies.

Other Banking Services.

Other Banking services requested:

- The City uses positive pay for vendor checks. The information is transmitted biweekly for vendor disbursement. The Proposer shall provide details of the bank's process as it relates to this system (i.e. verification for checks presented to be cashed, online check images etc.).
- The bank will provide all documents needed to effectuate deposits and withdrawals. These shall include, but not be limited to, three-part carbonless deposit slips, coin wrappers, envelopes, tamper proof disposable style deposit bags, and deposit stamps. If it is more cost effective to have a third party vendor provide checks, etc., the City reserves the right to contract with a third party for these items.

- Direct deposit is to be available to employees by 8:00 a.m. on distribution day. The City is on a weekly payroll basis, covering an average of 140 employees every Friday. The net payroll amount is approximately \$80,000 per pay period. Of this amount, approximately 99% falls under the *Voluntary Direct Deposit Payroll System*. Occasionally, seasonal employees are paid by check drawn on a zero balance Account. The Proposer should specify how many days and the time of the day that deposit is required for the electronic file. The Proposer should provide information regarding a debit card service for those employees currently not using direct deposit. For the employees who receive checks and are not associated with the banking institution, the City requires that they be able to cash their checks at the banking institution without penalty. Proposers are to provide details of how their institution administers a direct payroll deposit program and describe procedures in detail for receiving electronic payroll. This should include the transmission deadlines for Direct Deposit ACH files and a description of when the funds are debited from the zero balance account. Also, provide details on how voiding and the reversal of individual direct deposit items are handled. Indicate in your proposal if it is possible to reverse or cancel an ACH file and the appropriate procedures that apply. The Proposer must be capable of processing this Direct Deposit Payroll whether the employees' depositing accounts are at the City's bank or at other financial institutions.
- The City currently processes the average of 80 accounts payable payments on a bi-weekly basis every other Friday. The average vendor checks payment amount is approximately \$290,500 per pay cycle. Electronic funds transfer capability for accounts payable payments to the vendors is required.
- Cancelled check availability must be accomplished through web-based access, electronic or downloadable format. The electronic copies should include images of the fronts and respective backs of checks paid during the period. A cross-reference or key to enable the City to query and locate checks based on check numbers, check amount, check issue date and check cashed date should be available for all electronic files of cancelled checks.
- The Proposer agrees to accept *Stop Payment Orders* on-line. The Proposer further agrees to follow-up with a *confirmation* for each stop payment order given by the City within 24 hours of notification. Upon receiving a stop payment order, the Proposer will immediately examine its records and inform the City as to whether or not the check(s) have cleared. The Proposer will be responsible for any item that has cleared if such item was confirmed as a stop payment on an as of day basis and is subsequently cleared by the bank. A cancellation of a stop payment order will be handled in the same manner. The Proposer shall indicate in their proposals the time period a stop payment order remains in effect. If a cost-effective on-line electronic process is available for submitting Stop Payment Orders, that should be included in the proposals.
- Funds Availability. The Proposer agrees to credit the Disbursement Account for all deposited checks in accordance with the Proposer's Availability Schedule. All items deposited for credit by the City or by electronic or wire transfers, etc., are to be credited to the City's Disbursement Account on the same day on which the Proposer receives credit

for such items. A majority of the checks deposited by the City will be un-encoded. Under no circumstances shall the clearance period exceed the Federal Reserve guarantee. The proposal shall include a copy of the Proposer's Availability Schedule including details regarding how the Proposer determines and calculates availability of deposited items and how changes to the Schedule are communicated to the City.

- Overdraft protection shall be provided. If the total amount of checks and/or other payments exceeds the combined available balances of the Accounts, the Proposer agrees to pay all checks presented for payment. Proposals must include information regarding overdraft protection.
- If the City develops a need for additional accounts or services during the life of the Depository Agreement, those new accounts or services shall be provided with the same condition as apply to existing accounts at the time. If the Federal Reserve, Depository Institutions Deregulation Committee or other regulatory bodies provide for the establishment of new accounts or other regulations that are favorable to the City, the Institution shall make those new services available to the City.
- All checks returned due to insufficient funds will not be automatically deposited for a second time. The City will notify the endorser.
- All debit and credit memos required to adjust errors caused by the Proposer will not be charged to the City. A copy of the particular deposit slip must accompany all deposit errors. All bank/institution errors must be corrected within ten (10) business days of notification by the City.
- The Proposer will provide a complete funds transfer service, which includes secure procedures for facilitating both repetitive and non-repetitive fund transfers with appropriate call-back authorization. The City will not be charged for transfers between the City accounts.
- The option and cost associated with having an armored vehicle to conduct a once a week pick up of the metered parking coin deposit is requested.
